Descripción

- **Application:** Support wire for suspended shading systems
- **Material:** Stainless steel with polished surface
- **Tensile strength:** 1300 Nm
- **Packaging unit:** 31 kg

The **2 mm Inox Wire** is the ideal solution for suspended shading systems. Thanks to its polished surface, S-hooks glide smoothly along the wire, ensuring reliable and trouble-free operation of the system.

With a tensile strength of 1300 Nm, this stainless steel wire offers excellent stability and durability. It is specifically designed for use in professional greenhouse installations and provides secure support.

The packaging unit consists of a coil weighing approximately 31 kg, with around 40 m per kg.
