our textile finishing department

Tailored Textile Solutions for Your Greenhouse

We custom-make all greenhouse textiles to fit your specific needs.

Our sewing department specializes in:

- Roll-up screens / side ventilation systems
- Suspended screens
- Lay-flat screens
- Outdoor fabrics
- Indoor fabrics
- Blackout materials

We offer the following services in textile fabrication:

- Cutting and hemming to exact dimensions
- Producing gutter strips
- Sewing loops
- Inserting hooks to customer specifications for indoor and outdoor applications
- Sewing in reinforcement bands
- Fabricating double-layer textiles
- Sewing loops for guide rails and cords
- Creating pockets for weight inserts

We customize energy screens individually and precisely tailored for your greenhouse.
Benefit from over 30 years of experience in our textile workshop and weaving mill factory!
