Description

- **Application area:** Guiding wire ropes in greenhouse systems
- **Material:** Pulley made of durable plastic, housing made of metal for high stability
- **Installation:** Fixed and swiveling mounting eye for flexible attachment
- **Special feature:** Wire rope guidance through the housing design
- **Packaging unit:** 5 pieces

The **Block pulley 50** is a reliable solution for guiding wire ropes in greenhouse systems. It features both a fixed and a swiveling mounting eye, allowing for flexible installation.

The pulley is made of high-quality plastic, while the housing is constructed from metal to ensure maximum stability and durability. Its specialized housing design guides the wire rope securely and minimizes unnecessary friction.

Thanks to its versatile applications, the block pulley is ideal for various uses in greenhouse technology.
