Description

- **Application:** Seals the gap between screen profile and greenhouse truss
- **Material:** Rubber
- **Length:** 200 m per roll
- **Compatibility:** Fits screen profiles Type I–V
- **Function:** Prevents light penetration and heat loss when screens are closed

The **Rubber seal for screen profile – Roll = 200 m** is used in energy screen systems to close the gap between the screen profile and greenhouse structure. It minimizes energy loss and light intrusion and is quick to install on all standard screen profile types.

All prices excl. VAT plus shipping costs and possible delivery charges, if not stated otherwise.
