Description

- **Application area:** Versatile pulley for shading systems, fitness equipment, stage construction, media technology, and garage doors
- **Material:** Impact-resistant plastic
- **Diameter:** 90 mm
- **Maximum load capacity:** 100 kg
- **Rope diameter:** Suitable for ropes and wires up to 7 mm
- **Installation:** Galvanized bracket with M8 eye bolt for easy and secure mounting
- **Special feature:** Pre-assembled and ready for immediate use

The **Pulley 100 with bracket and M8 eye bolt** is designed for professional use and offers a robust, long-lasting solution for various applications. Thanks to its impact-resistant plastic and galvanized mounting components, it is especially durable and reliable.

It is ideal for use in shading systems, as well as for the construction and repair of fitness equipment, stage setups, media installations, and garage doors. The pulley comes fully assembled and is ready for immediate deployment.
