Description

- **Application:** Closed energy screen fabric for greenhouses
- **Material:** Interwoven acrylic yarns for reliable moisture exchange
- **Width:** 430 cm

PhormiTex 44 B is a closed energy screen fabric with a shading level of approx. 45% and energy savings of approx. 50%. It supports efficient greenhouse climate control and helps reduce energy consumption.

The interwoven acrylic yarns provide reliable moisture exchange, while the integrated bands allow direct attachment of S-hooks.

The fabric is certified flame-retardant (B1) for the European market.

Note: Price refers to material only. Additional costs for finishing (e.g. cutting, sewing) may apply.

Product information

Energy Saving:	50 %
Shading:	45 %
Direct Light transmission:	55 %
Flame retardant (DIN 4102 B1):	Yes
UV Stabilization:	600 kLy
Weight (+/- 10%):	82 g/m²
