Description

- **Product:** Lexan film fastener Type 1 – base
- **Packaging unit:** 100 pieces
- **Application area:** Fastening bubble wrap to greenhouse walls
- **Material:** High-quality plastic
- **Function:** Base for securing the film, fixed with silicone adhesive (Contractors)
- **Advantages:** Stable attachment, easy to use

The **Lexan film fastener Type 1 – base** serves as the foundation for securely fastening bubble wrap to greenhouse walls. It is fixed in place using silicone adhesive (Contractors) and enables a stable connection of the film to glass or twin-wall sheets.

Once installed, the bubble wrap is pressed onto the base and then firmly sealed with the matching upper part. This method ensures reliable insulation and helps regulate the temperature inside the greenhouse efficiently.

With a packaging unit of **100 pieces**, the base is ideal for professional use. A proven solution for gardeners and farmers who want to insulate their greenhouses effectively.

All prices excl. VAT plus shipping costs and possible delivery charges, if not stated otherwise.
