Description

- **Product:** Jute fabric for balling
- **Width:** 90 cm
- **Quality:** M / H100
- **Length:** 100 m
- **Application:** Balling of trees and nursery plants
- **Material:** Jute fibres
- **Function:** Protection and stabilization of roots and stem
- **Advantages:** Contains no synthetic fibres

The **jute fabric for balling** is suitable for securing and protecting trees and nursery plants. It is made from jute fibres and contains no synthetic materials.

The structure of the fabric ensures reliable balling and is ideal for professional use in nurseries and horticulture.

With a width of **90 cm** and a length of **100 m**, it is versatile and provides secure stabilization of roots and stem.

All prices excl. VAT plus shipping costs and possible delivery charges, if not stated otherwise.
