Description

- **Application area:** Cable drum for wire rope drives in shading systems
- **Material:** Impact-resistant plastic for high durability
- **Installation:** Two-part design allows retrofitting onto the drive shaft
- **Special feature:** Pre-grooved plastic ensures structured winding and smooth rope movement
- **Suitable for:** Wire ropes up to 3 mm in diameter
- **Capacity:** Winding length up to 570 cm
- **Mounting method:** Secured with four included screws and a special set screw

The **Cable drum 1″ – Type II** is a reliable solution for shading systems. Its pre-grooved plastic surface enables structured winding of the wire rope, ensuring smooth and consistent movement.

The two-part design allows for easy retrofitting onto the drive shaft. The drum halves are joined using the included screws, while a special set screw secures the drum to the shaft.

Made from impact-resistant plastic, the drum protects the wire rope and extends its service life—making it a durable and efficient choice for greenhouse installations.
