Description

- **Application:** Motor guide for RB120-11/13 tube motors in vertical guide rails
- **Material:** Galvanized steel
- **Mounting:** Accepts 16×16 mm square pin - secured with cotter pin
- **Function:** Absorbs axial and rotational forces of the motor
- **Ridder Article No.:** 550505

The **Guiding unit VK16 / L170** is designed for RB120 tube motors and ensures stable and precise movement within the guide rail. It is built to absorb both axial and rotational forces and is secured with a 16 mm square pin and cotter pin.
