Description

- **Application area:** Component of the TGU delay set for limiting the sliding clamp
- **Material:** High-quality steel for secure fixation
- **Function:** Reduces movement of the delayed fabric panel as part of the TGU delay set

The **Hose clamps 12.22 for tube mount reduction set** are an essential component of the TGU delay set. They serve as a limiter for the sliding clamp and ensure controlled movement of the delayed fabric panel.

Thanks to their high-quality steel construction, the hose clamps provide reliable fixation and are ideal for long-term use in shading systems.
