Description

- **Application area:** Connecting support wires with 19 mm aluminum pipes in shading systems
- **Material:** High-quality plastic for long-lasting use
- **Special feature:** Increased spacing between support wire and aluminum pipe for potentially improved sealing in certain greenhouse types

The **Lead edge tube clip 19 L** is specifically designed to **connect support wires with 19 mm aluminum pipes** in shading systems. Thanks to its high-quality construction, it ensures stable and durable fastening.

Its **elevated design** can offer improved sealing in certain **greenhouse configurations**, particularly in systems with closed energy screens.
