Description

- **Application:** Connecting screen profiles at 90° angles in shading systems
- **Material:** Aluminum
- **Installation:** Includes bolt and pre-cut screw thread
- **Feature:** Enables angled construction between two screen profiles for side-hung fabric systems
- **Packing unit:** 50 pieces

The **Connector Strip 90** is used to join all types of screen profiles at a 90° angle, particularly in systems where the shading fabric is suspended sideways. It comes complete with a bolt and pre-threaded screw hole, making it easy to install and highly effective for constructing angled transitions between profiles.
