Description

- **Application:** Sealing open ends of 60 × 60 mm steel profiles in greenhouse structures
- **Material:** Black plastic
- **Dimensions:** Fits 60 × 60 mm square tubes
- **Packaging Unit:** 100 pcs
- **Features:**
 - Flexible lamellae for easy push-in installation
 - Protects against injury and internal contamination
 - Ideal for low greenhouse setups with frequent contact zones

Plug 60 × 60 offers a reliable and clean finish for square tube ends in greenhouse and technical applications. Its flexible lamellae ensure a secure fit without tools, while the robust plastic resists moisture and mechanical stress. Perfect for areas with low clearance and high safety requirements.
