Description

- **Application:** Reduction sleeve for adapting the inner diameter of tube motors
- **Material:** Aluminum for high stability and corrosion resistance
- **Function:** Reduces the motor’s inner diameter from 59 mm to 34 mm

The **Adaptor for Roll-Up Tube** enables precise fitting of drive shafts to tubular motors by reducing the motor’s inner diameter from 59 mm to 34 mm. Made of high-quality aluminum, it offers a durable and stable solution for integrating tubular motors into greenhouse systems.
