Description

- **Application area:** Fastening of pre-fabricated fabric panels in drive-over arches or greenhouse structures
- **Material:** UV-stabilized polyester
- **Breaking load:** 50 kg
- **Length:** 500 m

The **Polyestercord 3 mm** is a braided polyester rope specifically developed for fastening pre-fabricated fabric panels in drive-over arches or greenhouse structures. Thanks to its UV stabilization, it is particularly durable and resistant to weathering.

With a breaking load of 50 kg, the cord provides high tensile strength and is ideal for use in demanding environments. Each roll contains 500 m of cord, offering ample material for a wide range of applications.
