Box

Version:

Ball bearing

Description

Thanks to two ball bearings, **the 52 mm pulley** is guided particularly securely on the axle and has a high level of stability under shear loads.

The galvanised steel bracket can be attached to your construction with an **M8 screw**. The retaining bracket can also be detached from the pulley to make installation **as easy as possible**, even in installation situations that are

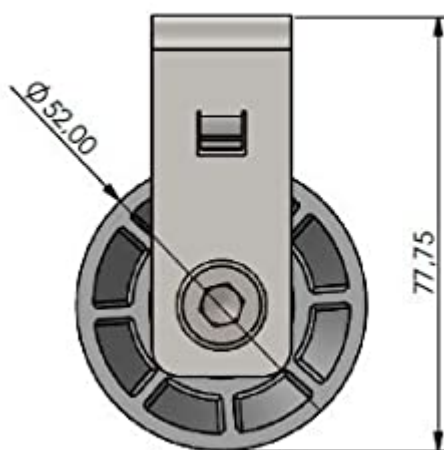

Created at 20.05.2024.
