

Overview

Storm button for 8 mm panels

Product number: 21100008

Options

Size (mm)

- 6
- 8
- 10
- 16

Description

- Application: Direct fastening of 8 mm twin-wall (LTC) panels to substructures
- Function: Prevents panels from being lifted by wind loads
- Additional Benefit: Simultaneously serves as a sealing component
- Installation: Mounted with sheet metal screws (not included)
- Suitable For: 8 mm panel thickness
- Packaging Unit: 100 pcs

Storm button for 8 mm twin-wall panels enables safe and secure attachment of LTC panels directly onto existing support structures. It effectively protects the panels from being pulled out by wind pressure and also seals the joints to reduce water or dirt ingress.
