Description

- **Application area:** Tensioning device for Inox wires in suspended shading systems
- **Material:** High-quality steel for maximum stability
- **Adjustability:** Adjustable to the left and right
- **Installation:** Requires an M6x65 screw (not included)
- **Special feature:** Ideal mounting position for suspended systems

The **Wire tightener 50.50** enables quick and easy installation of Inox wires in suspended shading systems. It is specifically designed for this application and offers optimal positioning.

After installation, the tensioner can be flexibly adjusted to the left and right to achieve the desired tension. An M6x65 screw is required for mounting and must be purchased separately.
