# Description

- **Application area:** Connecting 19 mm aluminum pipes for fabric guidance in shading systems
- **Material:** Aluminum
- **Special feature:** Flexibly adjustable angle for precise alignment
- **Installation:** Pre-assembly on the ground, precise angle adjustment at the mounting position

The **Lead edge elbow fits 19** serves as a connector for **19 mm aluminum pipes** in shading systems and enables precise fabric guidance. Thanks to its flexibly adjustable angle, the coupling can be aligned with high accuracy. Installation is carried out via a plug-in connection, which is secured by knurling the aluminum pipe.
