Description

- **Product type:** Strap tensioner set consisting of tensioner and strap holder
- **Material:** Both components made of galvanized steel
- **Mounting:** Tensioner with 3 pre-drilled holes, holder with 2 pre-drilled holes
- **Function:** Self-locking tensioner for secure and durable tensioning
- **Compatibility:** Suitable for straps and 8 mm polyester cord
- **Application:** Used to tension straps or cords in front of roll screen systems as wind protection

The **strap tensioner set** includes a self-locking tensioner and a matching strap holder – both made of durable galvanized steel. The tensioner features three pre-drilled holes for secure mounting, while the holder has two.

This set is ideal for tensioning straps or 8 mm polyester cords, for example in front of roll screen systems to serve as wind protection. The self-locking mechanism ensures reliable tension without the need for readjustment.

Thanks to its robust construction and versatile use, the set is a dependable solution for professional greenhouse installations.
