Description

- **Application:** Greenhouse shading system
- **Material:** Acrylic and aluminum fibers
- **Shading Rate:** Approx.55–60%
- **Width:** 350 cm
- **Color:** Alu-Yellow
- **Feature:** Moisture-regulating and reflective

FFS 2/4 alu-yellow is a premium-grade greenhouse shading fabric designed to reflect solar radiation and reduce internal temperature. Woven aluminum fibers provide thermal reflection, while acrylic threads help absorb evaporation moisture for a drier, fungus-resistant atmosphere.

It’s ready to hang using S-hooks without additional finishing, and available in multiple sizes and color variants. This version offers a vibrant yellow aluminum weave for high light management and greenhouse climate control.

Note: Price refers to material only - additional charges may apply for fabrication.

Product information

Energy Saving:	60 %
Shading:	55 %
Direct Light transmission:	45 %
Flame retardant (DIN 4102 B1):	No
UV Stabilization:	5 years (climate: Central Europe)
Weight (+/- 10%):	115 g/m²
