Description

- **Application:** Closed energy screen fabric for greenhouse applications
- **Material:** Woven acrylic yarns ensuring reliable moisture exchange
- **Width:** 475 cm

PhormiTex 55 is a closed energy screen fabric with a shading value of approx. 55% and an energy-saving performance of approx. 51%. It supports efficient climate regulation inside the greenhouse and helps reduce overall energy consumption.

The woven acrylic yarns ensure reliable moisture exchange and contribute to maintaining a stable greenhouse climate.

The fabric is certified as flame-retardant according to DIN 4102 B1, meeting high European safety standards.

Note: The price refers to material costs only; additional confectioning costs may apply.

Product information

Energy Saving:	51 %
Shading:	55 %
Direct Light transmission:	45 %
Flame retardant (DIN 4102 B1):	Yes
UV Stabilization:	600 kLy
Weight (+/- 10%):	86 g/m²
