Description

- **Application:** Energy-saving screen for greenhouse use
- **Material:** Closed fabric made of Alu/Modacryl/HDPE
- **Width:** 430 cm
- **Shading:** 55%
- **Energy saving:** 49%
- **Feature:** Flame-retardant (DIN 4102 B1)

PhormiTex Hybrid 55 is a closed indoor energy screen designed for greenhouse climate control. With a shading value of 55% and an energy-saving performance of 49%, it contributes to efficient temperature and light management.

The combination of aluminum, modacrylic and HDPE ensures reliable moisture exchange and long-term durability. The fabric is flame-retardant according to DIN 4102 B1, meeting essential safety requirements.

Note: The price refers to material costs only; additional confectioning costs may apply.

Product information

Energy Saving:	48 %
Shading:	55 %
Direct Light transmission:	45 %
Flame retardant (DIN 4102 B1):	Yes
Weight (+/- 10%):	86 g/m ²
