## Description

- **Application:** Energy-saving screen for hanging greenhouse systems
- **Material:** Closed fabric made of Alu/Modacryl/HDPE
- **Width:** 430 cm
- **Shading:** 65%
- **Energy saving:** 53%
- **Feature:** Reinforced strips every 20 cm
- **Fire rating:** Flame-retardant according to DIN 4102 B1

**PhormiTex Hybrid 66B** is a closed energy screen designed for hanging systems. The B version includes reinforced strips every 20 cm, enabling direct installation with S-hooks.

With 65% shading and 53% energy saving, the screen supports efficient climate control inside the greenhouse. The aluminum, modacrylic and HDPE structure ensures durability and reliable moisture exchange.

**Note:** The price refers to material only; additional confectioning costs may apply.
