Description

- **Application:** Woven blackout fabric for laid and suspended installations
- **Material:** Black woven fabric
- **Width:** 400 cm
- **Characteristic:** Breathable for reliable blackout use

PH1-FP Blackout Woven Fabric - 400 cm is a single-layer technical textile designed for use in blackout systems. Its construction ensures dependable darkening while remaining lightweight and versatile across suspended or laid applications.

The wide 430 cm version simplifies coverage of large spans, whether in greenhouse environments or partitioned areas. Compatible with curtain systems or tailored fittings as needed.

Note: Pricing refers to raw material only. Fabrication services available upon request.
