Description

- **Application:** Assimilation screen for greenhouse use
- **Material:** Closed fabric made of PE/PES/Acrylic
- **Width:** 400-430-480-530 cm
- **Shading:** 99%
- **Energy saving:** 42%
- **Light transmission:** 1%

PhormiTex Noctis is a high-performance assimilation screen designed for indoor greenhouse applications. With 99% shading and only 1% direct light transmission, it is ideal for full blackout and precise light control.

The durable PE/PES/acrylic structure ensures long-term stability, reliable moisture exchange and consistent performance. With an energy-saving value of 42%, the screen also contributes to efficient climate management.

Note: The price refers to material only; additional confectioning costs may apply.

Product information

Energy Saving:	42 %
Shading:	99 %
Direct Light transmission:	1 %
Flame retardant (DIN 4102 B1):	No
UV Stabilization:	600 kLy
Weight (+/- 10%):	132 g/m ²
