

Overview

Wire guide clip uni - PU = 50 pcs

Product number: 22000332

Description

- **Application:** Fastening uplift wires to Screen Profile I-II in shading systems
- **Material:** Galvanized steel for high stability and corrosion protection
- **Installation:** Simple mounting on the screen profile for secure wire guidance
- **Feature:** Universal compatibility with various shading system designs
- **Packaging Unit:** 50 pcs

Universal Wire Guide is purpose-built for **securing uplift wires** in greenhouse shading systems. It mounts directly onto **Screen Profile I-II**, ensuring stable and reliable wire alignment throughout operation.

Made of **galvanized steel**, the guide offers long-term durability and excellent resistance to corrosion. Its universal design makes it suitable for a wide range of shading configurations, providing flexibility and ease of integration.
