

# **Overview**

# Wire guide clip (short) 13 mm - for 19 mm tube - PU = 100 pcs

Product number: 22000330

## Options

### Length (mm)

13

38

44

# **Description**

- Application: Guiding 19 mm aluminum tubes along polyester wires in shading systems
- Material: Galvanized steel
- Installation: Mounted onto polyester wire, then clipped onto the 19 mm aluminum tube

**Wire Guide (short) 13 mm** is designed to **securely guide aluminum tubes** along polyester wires in greenhouse shading installations. First attached to the wire, it is then clipped onto the tube, ensuring a straight and stable movement of the fabric panels.
