Description

- **Application:** Component of the TGU delay set for greenhouse shading systems
- **Material:** High-quality plastic
- **Installation:** Connects the fabric guide tube with the 19 mm delay tube
- **Feature:** Ensures secure and reliable attachment
- **Packaging Unit:** 100 pcs

Slide 19–25 is a core component of the **TGU delay set** used in professional shading systems. It connects the fabric guiding tube to the 19 mm delay tube on the driven rail, forming a strong and durable mechanical bond.

Made from premium plastic, this clip is resistant to environmental stress and ensures long-term performance. Its fit and flexibility contribute to the precise and smooth movement of shading fabrics, improving the overall reliability of the system.
