Description

Our Coloretten of tape fabric provide maximum and chemical-free protection from weeds! They are unbelievably easy to use:

Thanks to pre-perforated lines the Coloretten can be quickly cut on site.
The Coloretten are equipped with a Y-shaped incision. They can be put over the plants neck without further cutting or processing.

Both the perforation and the Y-incisions are cut hot. This prevents fraying of the ribbon.

All prices excl. VAT plus shipping costs and possible delivery charges, if not stated otherwise.
