Overview

Atlas wire, black - Ø 4 mm

Product number: 40100005

Description

- Application: Support wire for lay-flat shading systems and plant training
- Diameter: 4 mm • Length: 65 m/kg
- Material: High-strength polyester
- Features: UV-resistant, extremely tear-resistant, weatherproof

The Atlas wire, black - Ø 4 mm - 65 m/kg is a high-strength polyester wire used in lay-flat shading systems and for tying fruit trees and berry bushes. Its UV-resistant black coating and exceptional tensile strength make it ideal for long-term outdoor use.
