Description

- **Application:** Connector in telescopic systems – between universal joint and steel pipe
- **Compatibility:** Suitable for 34 mm pipes with 2.5 mm wall thickness and 32 mm pipes with 1.5 mm wall thickness
- **Material:** Galvanized steel – robust and corrosion-resistant
- **Installation:** Inserted into the pipe – ideal for TransAxle units as well as single and double universal joints
- **Packing unit:** 1 piece
- **Special features:**
    - Enables backlash-free, force-locking connection
    - Suitable for shading and ventilation systems in greenhouse construction

The **Pipe Adapter Ø 33.4 × 2.5 mm** is a versatile connector for telescopic systems in greenhouse installations. It serves as a transition between universal joints and steel pipes, ensuring a secure, backlash-free connection. Thanks to its compatibility with different pipe diameters and its robust galvanized steel design, it's ideal for durable and low-maintenance applications.
