Description

- **Application:** Fastening cable drums (Type III) in shading systems
- **Material:** High-quality, corrosion-resistant steel for lasting stability
- **Width:** 12 mm
- **Clamping Range:** 60–80 mm
- **Feature:** C7 W2 version for enhanced resilience

Clamp 60–80 / 12 mm wide / C7 W2 provides a secure solution for **fastening cable drums (Type III)** in greenhouse shading systems. Its durable steel composition ensures a firm connection that supports long-term system performance.

Thanks to its robust design, this clamp is especially suitable for setups requiring high clamping force and operational reliability.

The product is ideal for professional use in horticultural environments and contributes to the efficiency and durability of greenhouse shading systems.
