Description

- **Application:** Retightening of already installed wires and cables
- **Material:** Galvanized steel
- **Installation:** Removable tensioning drum can be inserted without disassembly
- **Special feature:** No need to uninstall loose wires for retensioning

The **Wire Tightener for Retightening** is ideal for correcting slack in wires and cables that have already been installed. Thanks to its removable tensioning drum, there’s no need to uninstall and reinstall the wire. The drum can be inserted into the housing without any mounting effort, making it a time-saving and efficient solution for greenhouse shading systems and similar setups.
