• Application: Roller screens and partitions for greenhouses

• Material: Woven fabric with white lamination

• Width: 250 cm

Shading Rate: Approx. 100%
Light Transmission: Approx. 0%
Energy Savings: Approx. 60%

• UV Stability: 600 kLy

• Feature: Double-sided coated for indoor and outdoor use

PHL White Blackout Fabric - 250 cm offers full light-blocking performance for use in greenhouse partitioning and interior screening systems. The laminated white finish helps reflect sunlight while reducing heat input and unwanted light exposure.

Usable on both sides and in various environmental settings, it ensures consistent shading and energy efficiency in modern greenhouse management.

Note: Price refers to material only. Additional charges for fabrication (e.g. cutting, sewing) may apply.
