

## **Overview**

## Pulley 40 (TGU) with splint bracket

**Product number:** 01500300-1

Options

PU (Pcs)

1

100

## **Description**

This plastic pulley has a split bracket for attachment to already strained cables. In this case the pulley functions as a guiding roller. Being turned around the pulley can be suspended with the included S-hook. In this position the pulley can divert cables.
