

Overview

FRM50-tube motor-50-12-230

Product number: 33100052

Description

A TGU durable and robust tubular motor can be mounted onto 50 mm and 63 mm roll up tubes.

The motor has a voltage of 230 V for European market. A variant of 120V for the American market is also available on request.

The limit switches can be easily adjusted from the outside with an Allen key.

The tubular motor is delivered with a 10x10 mounting bracket to be set onto the motor guide.
