Description

Application:

1. Fast, easy replacement of broken shaft hangers.
2. Sturdy and durable components for new and old greenhouses.

Created at 12.05.2024.

* Our offers are directed exclusively to companies. We do not conclude contracts with consumers. All prices excl. VAT plus shipping costs and possible delivery charges, if not stated otherwise.

3. Designed to fit most greenhouses, it can also be customized on demand.

Benefits:

- Less labor on repairs. No need to dismantle the shaft, our unique hangers are assembled around it - it's a one-man job!
- Adds flexibility to the construction of new systems in existing and new buildings.
- Extends the life of other related parts (motors, drive pipes, structure stability) due to the specially formulated inner plastic ring which serves as bearing support and holds the drive line in its optimal position.
- A better alternative to a standard support plate and other shaft hangers.
- Makes complicated drive line repairs easy!
