Description

- **Application area:** Gentle guidance of fabric drops in laid shading systems
- **Installation:** Inserted into the screw channel of the screen profile and secured with the included screw
- **Function:** Enables clip profiles to be attached at the end of the screen profile
- **Material:** Plastic
- **Packaging unit:** 1 piece
- **Special features:**
    - Tool-free installation – ideal for retrofitting
    - Protects the fabric from abrasion and damage
    - Compatible with all common screen profile types with screw channel

The **Retainer clip tube for screen profile** is a practical accessory for laid shading systems. It is simply inserted into the screw channel of the screen profile and secured with the included screw. This allows clip profiles to be safely and gently attached to the end of the profile. Ideal for durable and low-maintenance shading systems in professional greenhouse construction.
