Description

- **Application:** Mounting the gear rack below the fabric in shading systems with push rod drive
- **Material:** Galvanized steel for high corrosion resistance
- **Size:** 160 mm
- **Spacing:** 160 mm between screen profile and gear rack
- **Packing unit:** 30 pieces
- **Features:** Robust and durable quality

The **Adaptor for rack 160 mm - Welded and Galvanized** allows for stable installation of the gear rack below the fabric in shading systems with push rod drive. The galvanized steel provides high corrosion resistance and longevity.

This bracket ensures a spacing of 160 mm between the screen profile and the gear rack for optimal functionality.
