Description

The **Cable Dispenser 510** is a reliable tool designed for quick and easy handling of wires and ropes. It enables torsion-free unwinding from cable reels, preventing tangling and protecting your material while saving valuable time.

The dispenser is suitable for reels up to **510 mm wide**, with a maximum **diameter of 500 mm** and a load capacity of up to **150 kg**. Side-mounted **plastic rollers** act as spacers to prevent the reel from bending against the dispenser's side frames.

Rubber feet, mechanically attached to the base, ensure a stable hold during unwinding. **Galvanized drums** and **powder-coated side frames** provide effective corrosion protection. The robust construction guarantees **maintenance-free operation**.

Dimensions:
Approx. 380 x 570 x 90 mm (L x W x H)

Made in Germany
