

## **Overview**

## Motor console for EWA 10+12

Product number: 25250029

## **Description**

- Application: Mounting EWA10 or EWA12 gear motors onto IP beams for ventilation drives
- Material: Robust metal construction for high stability
- Installation: Simple screw-on mounting no welding required
- Special feature: Slotted holes allow tolerance compensation during installation

The **Motor Bracket for EWA 10+12 for IP Beams** enables easy and secure mounting of EWA10 or EWA12 gear motors onto IP beams in continuous ridge ventilation systems. Screw-on installation eliminates the need for laborious and hazardous welding. Slotted holes in the bracket allow for tolerance compensation, ensuring precise and stable attachment.
