

Overview

Motor console for EWA 10+12

Product number: 25250029

Description

- **Application:** Mounting EWA10 or EWA12 gear motors onto IP beams for ventilation drives
- **Material:** Robust metal construction for high stability
- **Installation:** Simple screw-on mounting — no welding required
- **Special feature:** Slotted holes allow tolerance compensation during installation

The **Motor Bracket for EWA 10+12 for IP Beams** enables easy and secure mounting of EWA10 or EWA12 gear motors onto IP beams in continuous ridge ventilation systems. Screw-on installation eliminates the need for laborious and hazardous welding. Slotted holes in the bracket allow for tolerance compensation, ensuring precise and stable attachment.
