Description

- **Product:** Aquafloora 200 – 3 layers
- **Surface weight:** 400 g/m²
- **Width:** 150 cm
- **Length:** 50 m
- **Application:** Irrigation mat for cultivation tables
- **Material:** Combination of Aquatex Groundcover 100, Aquafil 120, and PE film
- **Function:** Optimal water retention and distribution
- **Advantages:** High storage capacity, easy handling, long-lasting

Aquafloora 200 is an innovative irrigation system for cultivation tables, consisting of three perfectly matched layers: **Aquatex Groundcover 100** for a stable surface, **Aquafil 120** for uniform water distribution, and a **PE film** to minimize water loss.

Thanks to the seamless bonding of the materials, the mat remains stable and does not shift. With a water storage capacity of approx. 3 liters/m², it ensures efficient water usage.

With a width of **200 cm** and a length of **50 m**, it is ideal for professional use in nurseries and horticultural operations.
