Description

- Application: Push-pull tube for greenhouse shading and ventilation systems
- Diameter: 32 mm
- Wall thickness: 2.5 mm
- **Length:** 6.50 m
- Material: Galvanized steel
- Ends: Swaged for easy insertion and bolting
- Packaging: Bundle of 86 pieces

The **Steel tube Ø 32 mm / 2.5 mm - 6.50 m - 86 pcs/bundle** is used as a push-pull tube in greenhouse shading and ventilation systems. Its swaged ends allow for quick connection using bolt set 27.32. High torsional strength and corrosion resistance make it ideal for demanding environments.
