

Overview

Universal cloth clip 6 mm - PU = 500 pcs

Product number: 67100060

Description

- **Product:** Spring clip 6 mm
- **Packaging unit:** 500 pieces
- **Application area:** Fastening film or fleece to spring steel rods
- **Material:** High-quality plastic
- **Function:** Secure hold for films and fleeces in the construction of weather and frost protection tunnels
- **Advantages:** Quick to use, stable hold

The **Spring clip 6 mm for spring steel rods** is a practical solution for securely fastening films and fleeces to spring steel rods. It is ideal for building lightweight tunnels for weather and frost protection.

Thanks to its sturdy design, the clip ensures reliable fixation and protects plants from external influences. Additionally, the film can be lifted on the sides and secured with the clips to allow flexible ventilation of the tunnel—a practical option for regulating temperature and humidity.

With a packaging unit of **500 pieces**, the spring clip is perfectly suited for professional use. An essential tool for gardeners and farmers who want to protect their plants effectively.
