PhormiTex Eclipse 1 + 98 - 325 cm is a highly effective blackout fabric for climate-sensitive greenhouse operations. The aluminum outer layer reflects sunlight and mitigates thermal buildup above the curtain system, while the black inner layer achieves full light exclusion. With a shading performance of 99.9% and energy savings up to 78%, it meets the demands of advanced horticultural control systems.

Note: Price covers fabric only. Additional costs for cutting or tailoring services may apply.
