Description

- **Application:** Shaping and bending of PN perforated strip
- **Material:** High-quality steel for precise performance
- **Handle:** Ergonomically shaped for comfortable use
- **Highlight:** Ideal for greenhouse installations

The **Bending tongs** are the perfect tool for shaping PN perforated strip to fit your installation needs. They allow precise, effortless adjustments to ensure a secure fit in greenhouse structures.

The ergonomic handle ensures a comfortable grip, even during extended use. Built from durable steel, these pliers withstand mechanical stress and last through tough jobs.

Especially helpful when installing shading or ventilation systems, the pliers allow quick, flexible adaptations to perforated strip profiles.
