• Width: 150 cm • Length: 50 m

• Application: Irrigation systems for cultivation tables • Material: Aquatex Groundcover 100 + Aquafil 120

• Function: Optimized water retention and even distribution

• Advantages: High water absorption, easy cleaning, crease-free surface

AquaFloora 120 is an innovative solution for irrigating cultivation tables. Its two-layer structure combines highcapillarity AquaFil irrigation fleece with Groundcover to ensure optimal water retention and uniform distribution.

The crease-free surface prevents puddle formation, reducing evaporation. In addition, the surface is especially easy to clean—sweeping or wiping is all it takes.

With a water storage capacity of approx. 1 liter/m2, AquaFloora 120 ensures efficient water usage and supports healthy plant growth. The combination of high-quality materials makes it a durable and reliable solution for professional growers.
